One evidence of the conservatism of the convention is the fewer number of resolutions presented. The total number introduced at the close of the sesvention last year 150 resolutions were introduced.

Some 20 resolutions have already been disposed of, the great majority of which were defeated when reported to the convention from committees though a number of resolutions have Any one of those remaining is liable to cause hours of discussion and it is not likely that the convention will have concluded its labors by Saturday. The delegates are almost unantmous in the belief that next Monday row will see the beginning of the work and Tuesday will see the convention still in session.

The committees are reporting measures as fast as a decision is reached. Yesterday they had several knotty problems to deal with and the deletheir heads. As a "filler-in" the credentials of the delegates were taken 10 per cent for that trade. up and the arrangement made

Yesterday afternoon's session was commenced promptly at 2 o'clock, the roll call and reports from the committees being the first part of the program. A number of resolutions reported Tuesday were referred back to the committees for further consideration. They were all of minor importance. There will be much less work for the conference committee. Last year it was burdened by many trivial matters, which were opposed by the manufacturers and the result was that several matters were left unsettled to the detriment of the Brotherhood. This year the conference committee will have fewer questions to consider and there is not the siightest indication of a breach between the bosses and the op

In no branch of the trade has there been so great a need for a uniform scale as among the gilders, liners and scale calls for, while others have been paying less. Just why pool, Wellsville, Chester and Toronto, it was introduced is not known. There has been a report that the salary of the first vice president was to be increased, but just why Mr. Hutchins' own local desired such a measure is not known. However, as the members of the organization contribute to the salaries of the officers they are entitled to a voice as to the salaries.

The friends of John Woods are confident that he will be the next national secretary. At any rate such a possibility has brought one candidate, James Jameson, into the field as Mr. Woods' successor as treasurer. This afternoon in conversation with the News Review representative Mr. James son stated he would be a candidate in the event of Mr. Woods' election as

Mr. Jameson is one of the seven men who organized the Brotherhood and he has always been loyal to it. He has been treasurer of No. 9, of East Liverpool, year after year and has also served them as president. He has een a delegate to half a dozen national conventions and his past services are such as to entitle him to any office he may seek. So far he is the only candidate for treasurer mention-Rev. G. W. Frank Hutchins, secretary of the press committee, is making quite a hit with the newspaper men. He is giving out for publication the most important features of the convention. In fact tae Brotherhood has but very little to keep from the public. The manufacturers have no doubt selected the members of its conference committee and by the publication of the resolutions adopted they will have several weeks to consider them. Matters of minor importance will not be thrust upon the conference committee. Last year the convention enacted many minor resolutions, which were objected to by the manufacturers, and were not insisted upon by the operative members of the conference committee. It left the organization in the position of advocating measures, without caring enough for them to see that they were enforced. This condition will be avoided and the manufacturers can rest assured that any resolutions adopted will have the unanimous support of the organization. There will be fewer demands, terday, and intends to put up a six association. They will welcome any but more determination in enforcing

Business of Department Has Trebled in Last Fourteen Years-Replies Received Regarding Tulloch's Charges. Tyner Affair a Closed Incident.

Washington, May 7 .- A far-reaching extension of the present investigation of the affairs of the postoffice department, to include the overhauling of most of the large postoffices in the country, is in contemplation. It will cover all first-class postof-

fices whose annual receipts aggregate

a half million dollars. Mr. Payne said that the present administrative methods of the postal service were put in operation by former Postmaster General Wanamaker, 14 years ago, and since then the business of the depart ment has trebled. He said that it might be that some of the method were faulty and the practices irregu lar, and that the investigation would be made in the hope of initiating new and better methods as well as correct ing abuses. PROPOSITION TO END STRIKE Leaders of Longshoremen Submit Of

fer to Shipping Interests Which May Be Accepted. Montreal, May 7.—The leaders of

the longshoremen's strike submitted a proposition to the shipping interests which may be accepted and thus end the strike, which has crippled the commerce of this port since the opening of navigation. A meeting of the vessel men has been called to consider the proposition. The conditions named by the strikers are:

"All foremen to be employed in the same positions that they occupied at the close of jast year and that they be allowed to execute the functions of their office without interference as they have done in the past. In case of disputes arising the representation of Osteopathy, Kirksville, Mo., is tives of the men shall have the right to apply to the shipping companies to have grievances adjusted."

The concession made by the strikers is that the word "union" is not specified. The recognition of the union has heretofore been the stumbling block in the way of a settlement Acceptance of the terms submitted by the men will be a practical victory for the shipping men, but none except union men will be employed, as the foremen of last year are all union men and they will select the workmen.

President Takes Twelve-Mile Ride Great Things Looked for from Arizona-Urges Protection of Grand Canyon-Nature's Greatest Wonder.

Grand Canyon, Ariz., May 7 .- Arizona warmly welcomed President Roosevelt. A special train from Flagstaff brought a large crowd and people also came in from the surrounding country on horseback and in wagons. The president's train arrived here at waiting at the station as the train pulled in, and after the president had greeted a number of members of his old regiment he mounted and took a 12-mile ride. Then he returned to the hotel, where he made a brief address to the people and presented diplomas

"It was from Arizona," said the president, in opening his address, that so many gallant men came into the regiment that I had the honor to command. Arizona sent men who won glory on hard fought fields, and men to whom came a glorious and an honorable death, fighting for the flag of their country. As long as I live, it will be to me an inspiration to have served with 'Bucky' O'Neil."

The president also paid a compliment to Governor Brodie, who was a member of his regiment and who in troduced him to the audience.

"Arizona," continued the president, "is one of the regions for which I anticipate the most benefit from the wise action of congres in passing the irrigation law. I look forward to the effects of irrigation, partly as applied by the government and still more as applied by individuals, profiting by the experience of the government and possibly with help from it, as being of greater consequence to this region of the country in the next 50 years than any other material movement, whatsoever."

Speaking of the grand canyon the president said he believed it was absolutely unparalleled in the world.

"I want to ask you to do one thing in connection wiht it," he said. "In your own interest and the interest of all the country, keep this great wonder of nature as it now is. I hope you won't have a building of any kind to mar the wonderful grandeur and sublimity of the canyon. You cannot improve upon it. The ages have been at work on it and man can only mar

your children's children and all who come after you, as one of the great sights for Americans to see." The president also extended a word

of greeting to the Indians, a number

of whom were in the crowd. "Some of them were in my regiment," he said. "They were good with them. You have got to save to save them from certain eastern

philanthropy." At the conclusion of his remarks the president presented the diplomas, shook hands with those whom he addressed, and then, with Governor Brodie, President Butler, of Columbia college, and Dr. Rixey, he rode out to a miners' camp, about 15 miles from here, where he had luncheon. He spent the remainder of the afternoon inspecting the canyon and at 5:30 o'clock received the members of his old regiment in his car. At 6 o'clock he is scheduled to arrive at 8:20 a. m.

Interest of the Day Centered in Operations Performed by Doctor Lorenz at Hospital.

New Orleans, May 7.-Sectional meetings kept the delegates to the American Medical association busy. There were seven meetings in the forenoon and a dozen in the afternoon. Much of the interest centered in

the operations performed by Dr Lorenz at the Charity hospital. The operations were upon two particularly aggravated cases of clubfoot and the subjects were children. The amphi theater was thronged. Dr. Lorenz worked for more than an hour and ap parently restored the deformed feet

to normal condition. He said the cures would be permanent after four months. The demonstrations made very strong impressions upon those who witnessed them. Many deformed children were brought to the hospital but the surgeon was too fatigued to do more work

WATER CURE" ADMINISTERED

Insane Patients at Topeka Asylum Treated to This Delightful Mode of Punishment.

Topeka, Kan., May 7.-It has been customary to administer the "water cure" to refractory patients at the Topeka asylum for the insane, according to the testimony of Miss Knox, of Topeka, given before the legislative investigation committée. She was employed there during Governor Stanley's first term, and the head attendant of the ward in which she worked was Miss Houston, who left the institution to be married. It was by the orders of Miss Houston that the "water cure" was administered.

"When a natient refused to obey the orders given by Miss Houston. said Miss Knox, "attendants were ordered by Miss Houston to throw a sheet over the patient's head and throw her to the floor. While the attendants held the patient Miss Houston poured water out of a pan into the patient's face. The water was poured fast and the pouring continued until the patient agreed to obey or

Child Labor at Night Ably Discussed.

Little Ones Practically Overlooked by Newsboys' and Bootblacks' Homes. Practice of Overstudy in Educational Institutions Condemned.

Detroit, May 7 .- At the first session of the conference of the National Congress of Mothers Mrs. Kelley, of New York, handled very completely the question of employing child labor at night. She said:

"I with every mother realize that there is no state in the union that has a safe law covering this phase of the question. The strongest clause invariably says that no child will be required to perform night labor, but what employer will admit that he compels his juvenile employes to perform night labor. The state of Pennsylvania-in particular the cities of Phila delphia and Scranton-is the worst in the union in this regard."

In her report of the employment of children on the streets, such as the newsboys and bootblacks of the large cities. Mrs. Kelley said these little folks were practically outlaws so far as any assistance they received from the newsboys' and bootblacks' homes These institutions, she said, devoted much time to looking after the transient foreign element, and the news boys, bootblacks and telegraph messengers only found relief in the juven ile courts and the Catholic protector-

General Shutdown in New York. New York, May 7.-Without any apparent warning a general shutdown took place in the yards of the build ing material dealers and the lumber dealers all over Greater New York and its vicinity, as a culmination of the demands of the building material drivers' union and the material handlers' union. The brick manufac turers have decided to co-operate with the building material dealers and the lumber dealers and will get out very little brick until the present trouble is settled. The single piece of ware has now ble because of its rarity. Percy W. C. Adams, a descendant of the old manufacturer, now in control of the pottery run under that name in Staffordshire. England, was responsible for the advertisement printed in the Sun. It was his aim to obtain some trace of all the old ware at present in existence; to catalogue it and have the entire collection illustrated. The piece of ware owned by Mrs. Timmons is thought to be one of the oldest in the United States and is prized very highly by that lady. It is of peculiar design, 12x16 inches in size and the decorations are in brown. The engravings show a Spanish convent, surrounded by a beautiful landscape. The quality of decoration is underglaze and all is clearly-almost perfectly-preserved. The impression of the name "Adams" is stamped deeply in the body in an old English letter.

The fillers-in were the ones until the price asked was granted. The executed. pattern over which the dispute arose required four colors to complete, and the firm fixed the price at four cents. This the girls held was not enough. since the best they could do in a day was 10 sets, which would net them less than \$1.40. The fillers-in proposed that the firm make the pattern easier by doing away with one of the colors, which they argued would not injure the decoration in the least.

If the proposition were agreed to the girls could make out at the four-cent rate, but if the pattern was left as it is they would insist upon having five cents for the work. A committee called at the News Review office today and explained their side of the controversy. They stated that the point was not raised by them until they had made a thorough investigation. Two of the colors used in the decoration are orange and yellow. A test had been made, and it had been found that after coming out of the kiln no difference could be distinguished between the two by omitting the one colorthe effect, they say, was even better with but three. It is likely the dispute will be settled within a short

DESTROYED WARE.

Some two years ago the Patterson Pottery company lost a kiln of ware valued at \$600. The loss was caused by some one opening the kiln doors during the process of firing, resulting in the loss of the ware. The potter mpany charged that one Daniel Robleson was guilty. Since that time Daniel has not frequented Wellsville, but came back a few days ago. A warrant was issued and he was arrested and released on \$200 bond, furnished by his mother.

A decision has just been rendered by the supreme court of Pennsylvania which directly affects the practitioners of Christian Science. The right of the Christian Scientists to do business as a legalized corporation in the state was in fact denied by the court, on the ground that it is violative of the general policy of the state pertaining to the treatment or cure of disease. The adverse decision is based on the contention that the state law prescribes the qualifications of those who shall be allowed to attempt the cure or healing of disease.

Judgment Against Ohio Town. Indianapolis, Ind., May 7 .- A judgment for \$90,000 against the town of Defiance, O., was granted to John W. and Edward Schmidt, of this city, by the United States circuit court at Cincinnati. The suit grew out of a deal made by the Schmidt brothers and William Schriever with the town of Defiance about 10 years ago. A bond issue of \$50,000 made for the purpose of constructing a railroad bridge was bought by Indianapolis men. The contractor who was to do the work obtained possession of the \$50,000 and defaulted. The town of Defiance repudiated the bonds. PROPOSITION TO END STRIKE

Leaders of Longshoremen Submit Of fer to Shipping Interests Which May Be Accepted.

Montreal, May 7.-The leaders of the longshoremen's strike submitted a proposition to the shipping interests which may be accepted and thus ene the strike, which has crippled the commerce of this port since the opening of navigation. A meeting of the vessel men has been called to consider the proposition. The conditions

named by the strikers are: "All foremen to be employed in the same positions that they occupied at the close of last year and that they be allowed to execute the functions of their office without interference as they have done in the past. In case of disputes arising the representation of Osteopathy, Kirksville, Mo., 18 of disputes arising the representatives of the men shall have the right to apply to the shipping companies to have grievances adjusted.

The concession made by the strik ers is that the word "union" is not specified. The recognition of the union has heretofore been the stumbling block in the way of a settlement. Acceptance of the terms submitted by the men will be a practical victory for the shipping men, but none except union men will be employed, as the foremen of last year are all union men and they will select the workmen.

President Takes Twelve-Mile Ride Great Things Looked for from Arizona-Urges Protection of Grand Canyon-Nature's Greatest Wonder.

Grand Canyon, Ariz., May 7 .- Arizona warmly welcomed President Roosevelt. A special train from Flagstaff brought a large crowd and people also came in from the surrounding country on horseback and in wagons. The president's train arrived here at 9 o'clock in the morning, and until it left at 6 o'clock in the evening he was waiting at the station as the train pulled in, and after the president had greeted a number of members of his old regiment he mounted and took a 12-mile ride. Then he returned to the hotel, where he made a brief address to the people and presented diplomas

"It was from Arizona," said the president, in opening his address, that so many gallant men came into the regiment that I had the honor to command. Arizona sent men who won glory on hard fought fields, and men to whom came a glorious and an honorable death, fighting for the flag of their country. As long as I live, i will be to me an inspiration to have served with 'Bucky' O'Neil."

The president also paid a compliment to Governor Brodie, who was a member of his regiment and who introduced him to the audience.

"Arizona," continued the president, "Is one of the regions for which I anticipate the most benefit from the wise action of congres in passing the irrigation law. I look forward to the effects of irrigation, partly as applied by the government and still more as applied by individuals, profiting by the experience of the government and possibly with help from it, as being greater consequence to this region of the country in the next 50 years than any other material movement, whatsoever.

Speaking of the grand canyon the president said he believed it was absolutely unparalleled in the world.

"I want to ask you to do one thing in connection wiht it," he said. "In your own interest and the interest of all the country, keep this great wonder of nature as it now is. I hope you won't have a building of any kind to mar the wonderful grandeur and sublimity of the canyon. You cannot improve upon it. The ages have been at work on it and man can only mar it. Keep it for your children and

The president also extended a word of greeting to the Indians, a number of whom were in the crowd.

"Some of them were in my enough to fight and die, and they are good enough for me to treat as square with them. You have got to save months. The demonstrations made them from corruption, from brutality, and, I regret to say, at times we have to save them from certain eastern philanthropy.'

At the conclusion of his remarks the president presented the diplomas, shook hands with those whom he addressed, and then, with Governor Brodie, President Butler, of Columbia college, and Dr. Rixey, he rode out to a miners' camp, about 15 miles from here, where he had luncheon. He spent the remainder of the afternoon inspecting the canyon and at 5:30 o'clock received the members of his old regiment in his car. At 6 o'clock his train left for California. The first stopping place will be Barstow, where he is scheduled to arrive at 8:20 a.m.

Gray, of Richmond Hills, Jennie and James W. Russell to years, finally descending to Mrs. Tim-. mons, in whose possession it has since remained

The single piece of ware has now become a curiosity, and is very valuable because of its rarity. Percy W. C. Adams, a descendant of the old manufacturer, now in control of the pottery run under that name in Staffordshire, England, was responsible for the advertisement printed in the Sun. It was his aim to obtain some trace of all the old ware at present in existence; to catalogue it and have the entire collection illustrated. The piece of ware owned by Mrs. Timmons is thought to be one of the oldest in the United States and is prized very highly by that lady. It is of peculiar design, 12x16 inches in size and the decorations are in brown. The engrayings show a Spanish convent, surrounded by a beautiful landscape. The quality of decoration is underglaze and all is clearly-almost perfectly-preserved. The impression of the name "Adams" is stamped deeply in the body in an old English letter.

DISPUTE OVER DECORATIONS.

A controversy arose several days ago in the decorating department of will also attend in a body. the Wallace & Chetwynd pottery over the price to be paid for a certain decoration. The fillers-in were the ones affected and several attempts were made during the past few days to settle the dispute with Foreman Frank Irwin, but they failed and this morning 11 girls refused to continue work until the price asked was granted. The executed. pattern over which the dispute arose required four colors to complete, and the firm fixed the price at four cents. This the girls held was not enough. since the best they could do in a day was 10 sets, which would net them less than \$1.40. The fillers-in proposed that the firm make the pattern easier by doing away with one of the colors, which they argued would not injure the decoration in the least.

If the proposition were agreed to the girls could make out at the four-cent rate, but if the pattern was left as it is they would insist upon having five cents for the work. A committee calland explained their side of the controversy. They stated that the point was not raised by them until they had made a thorough investigation. Two of the colors used in the decoration are orange and yellow. A test had been made, and it had been found that after coming out of the kiln no difference could be distinguished between the two by omitting the one colorthe effect, they say, was even better with but three. It is likely the dispute will be settled within a short time.

New York jobbers report a good business in American crockery. Both English crockery and china have been in good request and large sales are reported. Deafness Cannot Be Cured

Deafness Cannot Be Cured
by local applications as they cannot reach
the diseased portion of the ear. There is
only one way to cure deafness, and that is
by constitutional remeties. Deafness is
caused by an inflamed condition of the mucous itning of the Eustachian Tube. When
this tube is inflamed you have a rumblinsound or imperfect hearing, and when it is
antirely closed. Deafness is the result, and
this tube restored to its normal condition,
hearing will be destroyed forever; nine
cases out of ten are caused by Catarrh, which

A decision has just been rendered by the supreme court of Pennsylvania which directly affects the practitioners of Christian Science. The right of the Christian Scientists to do business as a legalized corporation in the state was in fact denied by the court, on the ground that it is violative of the general policy of the state pertaining to the treatment or cure of disease. The adverse decision is based on the contention that the state law prescribes the qualifications of those who shall be allowed to attempt the cure or healing of disease.

Great Britain has now proclaimed a Monroe doctrine of her own as relates to her Persian gulf possessions. ILL AMONG STRANGERS

A Young Man With Typhoid Fever Attended By An Invalid Mother.

A young man named Edward Hin thorne has been confined to bed with typhoid fever at the boarding house of Mrs. Robbins for about four weeks. Before he was sick he was employed at the Carroll-Porter boiler works.

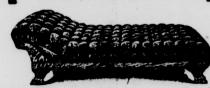

His funds were exhausted and he had to apply to the city for care. Dr. Hutchison, for the poor board, at first handled the case, but under the new code he has been legislated out. attending the patient. The case was reported to the board of public ser vice, which thought that the county should look after it. Dr. Fraser and the mayor were ordered by the board to notify the county authorities.

This case is one of the most pitiful that has ever been reported. The boy is in a critical condition, while the mother, who came to this city vesterday, is in about the last stages of consumption. The home of the mother and son could not be learned. Dr. Fraser is doing all in his power to save the young man, but he stated that his recovery was very deubtful

DIFFICULT POINT TO BE DECIDED

Mrs. Philip Marshall, residing on SUPREME COURT WRESTLES WITH A COLUMBIANA CASE.

John Shrader has completed the Failure of the Esterly Bank Raises a Question on Which Legal Minds Differ.

> Columbus, May 7 .- (Special.) - The ease of the State National bank, of Cleveland against Aaron Esterly, o Youngstown, receiver of the estate of J. Esterly & Co., growing out of the failure of the Esterly bank of Columbiana in 1896, was argued in the supreme court Wednesday. Probate Judge J. A. Judgment Against Ohio Town. Indianapolis, Ind., May 7.- A judgment for \$90,000 against the town of Defiance, O., was granted to John W and Edward Schmidt, of this city, by the United States circuit court at Cin cinnati. The suit grew out of a deal made by the Schmidt brothers and William Schriever with the town of Defiance about 10 years ago. A bond issue of \$50,000 made for the purpose of constructing a railroad bridge was bought by Indianapolis men. The contractor who was to do the work obtained possession of the \$50,000 and defaulted. The town of Defiance repudiated the bonds. PROPOSITION TO END STRIKE

Leaders of Longshoremen Submit Of fer to Shipping Interests Which May Be Accepted.

Montreal, May 7 .- The leaders of the longshoremen's strike submitted a proposition to the shipping interests which may be accepted and thus end the strike, which has crippled the commerce of this port since the open ing of navigation. A meeting of the vessel men has been called to consider the proposition. The conditions named by the strikers are

"All foremen to be employed in the same positions that they occupied at the close of jast year and that they be allowed to execute the functions of their office without interference as they have done in the past. In case of disputes arising the representatives of the men shall have the right to apply to the shipping companies to have grievances adjusted."

The concession made by the strik ers is that the word "union" is not specified. The recognition of the union has heretofore been the stumbling block in the way of a settlement Acceptance of the terms submitted by the men will be a practical victory for the shipping men, but none except union men will be employed, as the foremen of last year are all union men and they will select the workmen.

Horseless Carriages Don't Wear Out Highways, But Better Them.

Partisans of the automobile have ofen commented upon the obvious fact that if mechanical vehicles were to supplant horses in cities the trouble and expense of keeping the streets clean would be greatly reduced. That is a very evident and important point in favor of self-propelled carriages.

DONSTIPATION STARTED YOUR SUFFERING TURE IT AND YOUR AFFLICTION WILL VANISH. Mull's Grape Tonic Cures Constipation.

When the bowels move irregularly the entire bodily system must suffer. Constipation more frequently occurs among women and it manifests itself in provoking prefuse leucorrhea and other serious female diseases. Regular bowels will result in a complete cure when you use Mull's Grape Tonic. Unlike pills and ordinary cathartics, this remedy is a mild, gentle laxative in addition to being a greater flesh-builder, blood-maker and strength-giver than cod liver oil or any other preparation recommended for that purpose. Muli's Grape Tonic will permanently cure the most obstin-ate case of constipation, and the numerous afflictions that invariably follow in its wake.

President Takes Twelve-Mile Ride. Great Things Looked for from Arizona-Urges Protection of Grand Canyon-Nature's Greatest Wonder.

Grand Canyon, Ariz., May 7 .- Arizona warmly welcomed President Roosevelt. A special train from Flagstaff brought a large crowd and people also came in from the surrounding country on horseback and in wagons. The president's train arrived here at 9 o'clock in the morning, and until it constantly on the go. Horses were in waiting at the station as the train pulled in, and after the president had greeted a number of members of his old regiment he mounted and took a 12-mile ride. Then he returned to the hotel, where he made a brief address

"It was from Arizona," said the president, in opening his address, "that so many gallant men came into the regiment that I had the honor to command. Arizona sent men who won glory on hard fought fields, and men to whom came a glorious and an honwill be to me an inspiration to have

ment to Governor Brodie, who was a member of his regiment and who introduced him to the audience.

"Arizona," continued the president, "is one of the regions for which I anticipate the most benefit from the wise action of congres in passing the irrigation law. I look forward to the effects of irrigation, partly as applied by the government and still more as applied by individuals, profiting by the experience of the government and possibly with help from it, as being of greater consequence to this region of the country in the next 50 years than any other material movement, whatsoever."

Speaking of the grand canyon the president said he believed it was absolutely unparalleled in the world.

"I want to ask you to do one thing in connection wiht it," he said. "In your own interest and the interest of all the country, keep this great wonder of nature as it now is. I hope you won't have a building of any kind to mar the wonderful grandeur and sublimity of the canyon. You cannot improve upon it. The ages have been at work on it and man can only mar it. Keep it for your children and your children's children and all who come after you, as one of the great sights for Americans to see."

The president also extended a word of greeting to the Indians, a number of whom were in the crowd.

"Some of them were in my regienough to fight and die, and they are good enough for me to treat as squarely as any white man. There are a with them. You have got to save them from corruption, from brutality. and, I regret to say, at times we have to save them from certain eastern philanthropy."

At the conclusion of his remarks the president presented the diplomas. shook hands with those whom he addressed, and then, with Governor Brodie, President Butler, of Columbia college, and Dr. Rixey, he rode out to a miners' camp, about 15 miles from here, where he had luncheon. He spent the remainder of the afternoon inspecting the canyon and at 5:30 o'clock received the members of his old regiment in his car. At 6 o'clock his train left for California. The first stopping place will be Barstow, where he is scheduled to arrive at 8:20 a.m.

Child Labor at Night Ably Discussed.

Little Ones Practically Overlooked by Newsboys' and Bootblacks' Homes. Practice of Overstudy in Educational Institutions Condemned.

Detroit, May 7 -- At the first session of the conference of the National Congress of Mothers Mrs. Kelley, of New York, handled very completely the question of employing child labor at

"I with every mother realize that there is no state in the union that has a safe law covering this phase of the question. The strongest clause invariably says that no child will be required to perform night labor, but what employer will admit that he compels his juvenile employes to perform night labor. The state of Pennsylvania-in particular the cities of Philadelphia and Scranton-is the worst in the union in this regard."

In her report of the employment of children on the streets, such as the newsboys and bootblacks of the large cities. Mrs. Kelley said these little folks were practically outlaws so far as any assistance they received from the newsboys' and bootblacks' homes These institutions, she said, devoted much time to looking after the transient foreign element, and the newsboys, bootblacks and telegraph messengers only found relief in the juvenile courts and the Catholic protector- A Report From East Liverpool Con- time.

General Shutdown in New York.

New York, May 7.-Without any apparent warning a general shutdown took place in the yards of the building material dealers and the lumber dealers all over Greater New York and its vicinity, as a culmination of the demands of the building material drivers' union and the material handlers' union. The brick manufacturers have decided to co-operate with the building material dealers and the lumber dealers and will get out very little brick until the present trouble is settled.
